R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
# Load dataset
```

```
df <- read_dta(here("data", "clean", "uad_clean.dta"))
head(df)
```

```
## # A tibble: 6 x 18
##   record_id year purpose owner_occupied contract_price lot_size quality
##   <dbl> <dbl> <dbl+lbl> <dbl> <dbl> <dbl+lbl> <dbl+lb>
